

MEKONG INSTITUTE DATABASES

MEKONG INSTITUTE E-LIBRARY

<http://elibrary.mekonginstitute.org/>

The MI E-library is a digital platform housing a collection of well-curated sources and reference materials on the six countries of the Greater Mekong Sub-region – Cambodia, P.R. China, Lao PDR, Myanmar, Thailand and Vietnam, as well as other related publications on other countries in the globe.

Designed as a one-stop information space, the site allows users to easily access books, reports and articles about the GMS. The E-library features a diverse collection of content ranging from topics on education, energy, agriculture and rural development to trade and economics, logistics, climate change, immigration and labor, among many others.

Wide variety of curated resource materials on the GMS

Access reports, journals and research papers, working papers, electronic books and more about the GMS collected from regional and global organizations; as well as MI-released training reports, case studies, forum and workshop proceedings, and corporate publications including newsletters, infographics and brochures.

Country collections

Search and access country-specific publications and resources.

New collection alert to subscribers

Registered users are automatically added to the subscription list and receive an email alert on new collections every 2 weeks.

Optimized for mobile

The MI E-library interface has been specially designed for mobile and portable devices.

Access the latest MI news

The E-library provides easy access to MI news and event announcements.

GMS STATISTICS DATABASE

<http://gms.mekonginstitute.org/>

Country statistics and information on macroeconomic indicators are often fragmented and sourced from many different platforms. The GMS Statistics Database seeks to address this gap by providing collated data on the GMS countries. Up-to-date national and international-generated statistics on the GMS countries' demography and population, agriculture, ICT and energy, education and training, infrastructure, logistics and trade, and labor and growth are available.

Comparative charts of GMS data

Country data are presented in interactive charts that allow for country comparisons according to year and macroeconomic indicators.

Exportable data

All data can be exported in Excel or PDF formats for offline use.

Country statistics reference

Yearly statistical data on Cambodia, P.R. China, Lao PDR, Myanmar, Thailand, and Vietnam are provided as country statistical reports in PDF formats for download.

Optimized for mobile

Users can enjoy a mobile-optimized design of the database on their portable devices.
