countries	.,		

7. MONITORING AND EVALUATION

An effective monitoring and evaluation (M&E) mechanism will be utilized to assess the progress and measure the results of the intervention. The M&E will be introduced in the pre, during, and post-stages training.

Pre-event

Selection of Participants: Before the launch of the training program, relevant information on the prospective participants' knowledge level will be collected. The information will be used to assess and select the participants, monitor the progress, and assess the results of the intervention.

During event

During the event, a pre-and post-training assessment will be conducted to assess the
